

# ICC / FIDIC International construction contracts and the resolution of disputes

**2 – 4 June 2008, Houston, Texas**

## Objective

The conference will:

- Review the procedure for claims and disputes under FIDIC contracts
- Explain the legal entitlements of the contractor and employer
- Focus on specific features and practical implications of dispute resolution in international construction contracts (notably on dispute boards and arbitration) with a special update on ICC practice
- Explore practical implications and current developments particularly in the US.

World renowned experts in the field will lead sessions and be on hand to encourage interactive discussion among participants.

## Who should attend?

Engineers, contractors, in-house lawyers from construction companies and construction lawyers, arbitrators and mediators, contract managers, and financial institutions.

With the support of
